

Goldie's Umbrella Balance

The Rainy Day Parade was marching right down the sidewalk, and Goldie the dog was leading the way! She held her favorite bright umbrella high and wagged her tail to the beat of the music. Thump-thump, wag-wag! But just as the crowd cheered, a playful gust of wind went whoosh!

The wind flipped Goldie's umbrella completely upside down! Instead of stopping, Goldie let out a happy bark. She held the handle steady with her paws planted firmly on the ground, and watched as three big, heavy raindrops landed right inside the upside-down umbrella.

Wobble, wobble, wiggle! She balanced those giant drops like shiny glass marbles while she marched forward. Then—plop!—one drop burst, splashing right onto her shiny nose!

Goldie gave her wet nose a quick lick and let out a joyful woof, making all the watching kids giggle and cheer.
